# 1. Detailed experimental results for Figure 1

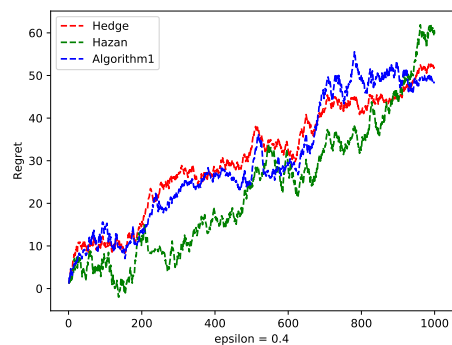

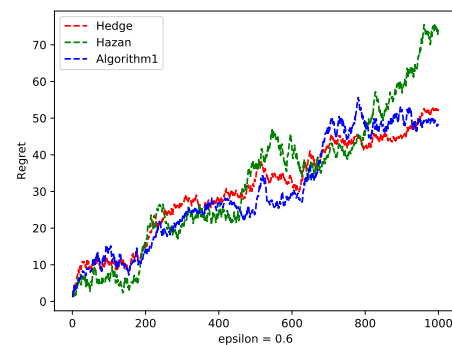

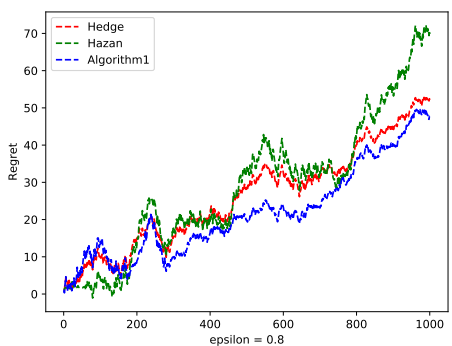

(a) $\epsilon = 0$
(b) $\epsilon = 0.2$

(c) $\epsilon = 0.4$

(d) $\epsilon = 0.6$

(e) $\epsilon = 0.8$

(f) $\epsilon = 1$

Figure 1: Results for different choices of ϵ when $N = 300$ and $d = 2$
